

PROTEA TRAINING COURSE: FTIR THEORY AND ADVANCED DATA ANALYSIS

Protea Ltd. would be delighted to welcome you to our next dedicated course for users of FTIR gas analysers who would like a more in-depth understanding of the principles of FTIR and how to interpret spectral data using Protea's advanced PAS software.

The course will consist of lectures and interactive workshops with data analysis of real process and emissions data.

Delegates are encouraged to bring a laptop PC and some of their own data to work on if available.

Course Dates

11th -12th October 2016
09.30 – 17:00

Lunch will be provided each day. Please advise us in advance of any dietary requirements.

Location

The course will be the first held at Protea's Middlewich office:

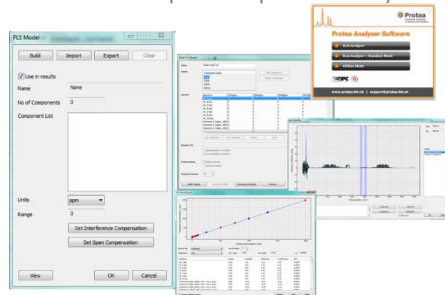

Protea Ltd,
10 Prosperity Court
Midpoint 18
Middlewich
Cheshire
CW10 0GD
UK

Course Outline

DAY 1:

Introduction to FTIR Theory
Introduction to Protea Analyser Software (PAS)
Advanced Analysis in PAS
Introduction to Spectroscopic Data Analysis

DAY 2:

Building Chemometric Models
Identifying unknown species in spectra
Data Analysis Worked Examples
Opportunity to analyser customers own data

Registration Fee

£1320 + VAT per delegate
Service contract discounts can be applied to this fee

Accommodation and Transportation.

Protea's office are located 20 miles from Manchester International Airport.
Nearest railway station is Winsford, 3 miles.
Via car, our offices are 2miles from J18 M6.

Please contact Protea for help acquiring accommodation.
